Finding of No Significant Impact

Dear Ms. Aubry,

On December 29, 2021, Ohio EPA issued a preliminary Finding of No Significant Impact (FNSI) and Environmental Assessment for two City of Columbus projects: Linworth Rd./Meeklynn Dr. - Storm Sewer and Meeklynn Drive Sanitary Sewers for public review and comment. The thirty-day period for comments has passed and no comments have been received. Therefore, the conclusions contained in that preliminary FNSI become the basis for this final FNSI for the above referenced projects.

This final Finding of No Significant Impact may be revised or rescinded at a future date based upon either changes to the proposed projects, the presentation of information which significantly alters earlier conclusions, or failure of the applicant to perform the environmental mitigation prescribed in the Environmental Assessment.

Sincerely,

Kathleen Courtright
